Christmas Newsletter

Club Champs

What's Coming;

Just wanted to tell everyone to have a wonderful Christmas, ski & drive safely, and enjoy your time with your family and friends this holiday season

We held the first of a new series of Club Slaloms at Surrey Bay, lake Waihola Sunday morning 28th November.

We used the floating slalom course, but had a late start after discovering that the water by the bay is not deep enough for a floating course, due to mud accumulation. However, we shortened up the buoy lines, got the course floating, and started skiing about 45 minutes late.

The conditions were perfect and everyone skied very well. Results are attached.

Please note:

1. For novice skiers, points are counted backward to 40 km/h on the novice course, regardless of starting course and speed. So your points may be different to what we announced yesterday.
2. For championship skiers, points are counted from 40 km/h on the championship course (therefore championship and novice points cannot be compared directly - for example, a championship score could be lower than a novice score). The key thing to keep in mind is that comparisons should be made only within the same division.
3. There needs to be a call made on novice skiers who are improving rapidly. Anyone clearly able to ski the championship course in Event 1 has been put into Championship division (indicated by championship buoys in both rounds of Event 1).
4. Some times were on the slow side in Event 1, but for our purposes at Club level it was the same for everyone.
